

Are you a Security Consultant?

We are keen to speak with Cyber Security Consultants interested in joining our growing Technical Consultancy on a permanent basis.

If you have experience of the following we would like to hear from you:

- Provision of security expertise on large scale Public Sector or Defence ICT programmes in a technical delivery or consulting capacity;
- Developing or reviewing new security architectures that mitigate the risks posed by new technologies and business practices;
- Identifying, analysing and evaluating information risks across a range of programmes, projects and systems;
- Authoring and/or supporting the development of security assurance documentation in accordance with leading risk management frameworks;
- Security, technical and enterprise architecture methods such as TOGAF and SABSA.

Forward your CV, along with a brief covering letter to recruit@actica.co.uk to find out more.

Direct applications only please.
